220 V, 50 Hz, PAL Video Inspector SystemINS002

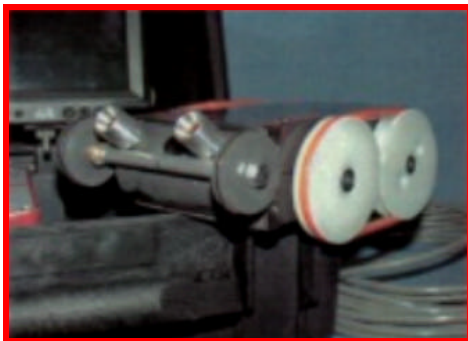

- same as above except 13" monitor instead of 9" and larger case
- (1) Foam lined, extruded aluminum road case with retractable handle and tilt wheels 19" deep x 17" wide x 24" high—75 lbs.

- *Great marketing and selling tool! Allows you to show existing conditions to your clients.*
- *Great quality assurance tool! Allows you to show your client what a good job you did. This leads to greater client satisfaction and more referrals.*
- *Small color camera fits almost anywhere and the (6) variable intensity lights provide plenty of illumination and reduces hot spots common in sheet metal ducts.*
- *50' cable, camera cart and shaft bracket makes it easy for you to place the camera where you need to.*

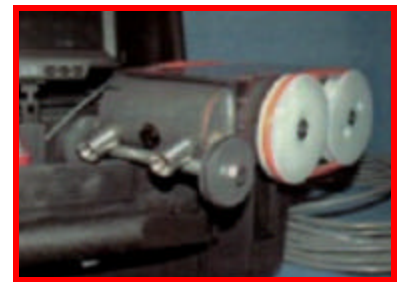

MINI - T ROBOCAM
