

AIRFLOW, FILTRATION & FUNCTIONALITY

Electrak 1

HEPA Filtered Duct Cleaning Collection Vacuum

- Ideal for Residential & Condos
- Use 2 or More on Large Commercial Jobs

POWER

- 1.5 HP Electric Motor
- 115 Volt - Input Power
- Adjustable Speed Control (0-20 Amp Draw)
- Variable Frequency Drive (VFD) with GFI Plug
- 25' Power Cord
- Available in 220 Volt, 1 Phase, 50 Hz
- 1-Year Warranty

INLET CONNECTION

- 12" Diameter Standard Hose Connection
- Inlet Reducers Available in 2" Increments

AIR

- 2,200 CFM Air Flow with HEPA Installed
- 9" H₂O Total Static Capability
- High Strength, Air Foil Design Impeller Provides Increased Efficiencies by Delivering Larger Volumes of Air with Less Noise and Power Consumption

FILTRATION

- Primary Stage Durable Cube Filter Removes Easily for Replacement or Cleaning
- Second Stage Pocket Filter is 90-95% ASHRAE Efficient
- Third Stage 24" x 24" x 12" HEPA Filter is Rated at 99.97% DOP Efficient and Scan Tested to Insure Leak-Free Performance

CONSTRUCTION

- Welded Aluminum Frame
- .080" Thick Riveted Exterior
- Compression Gaskets Between Modules
- 5" Diameter Casters
- Positive Locking Draw-Tite Latches for Quick Air-Tight Connection
- 33" Long x 24" Wide x 60" High (VAC)
- 18" Long x 24" Wide x 26" High (HEPA)
- Industrial Grade High Visibility Controls
- Magnehelic Vacuum Gauge
- Hourmeter and Ammeter
- 2-Wheel Cart with Stair Climber

HEPA Filtered Bucket-Vac

This is the shop-vac that performs on every job. HEPA Filtration makes it perfect for duct cleaning, remediation and simple clean-up. The wet/dry feature allows for drain pan clean-up in a duct cleaning operation. Quickly change buckets when large amounts of material need to be removed.

VAC300

- 100 CFM, 60" H₂O
- 5-Gallon Bucket Tank, Quick Change
- 99.97% Efficient at .3 Microns (HEPA)
- U/L Listed
- Weighs Under 20 lbs.
- 7 Piece Tool Kit
- Includes HEPA Filter and 3 Bag Filters
